

4 - 5 pm EDT Tuesday, May 19th

TRIALCHAT: Developing Agentic AI Chatbot Tools with Older Adults and Caregivers to Encourage Participation in ADRD Clinical Trials

Tim K. Mackey, MAS, PhD

Founder,
Chief Executive Officer,
S-3 Research

You'll learn about:

- The development of a multiagentic tool for navigating resources related to Alzheimer's Disease and clinical research participation opportunities
- Lessons learned from rapid prototyping, co-design sessions with older adults & caregivers & tech iteration based on user expectations
- Transitioning from pilot R&D to an NIH SBIR Phase 1 project
