Welcome to the College of Information and Computer Sciences! Welcome to our international students, our students from out of state, and students from Massachusetts. Welcome to our students of all races and ethnicities. Welcome to our students of all genders. Welcome to our students in the LGBTQ community, and our first generation college students. Welcome to those of you who have just begun your journey in computer science, and to those of you who have been coding for years. Welcome to students of all abilities, all political views, those of you who have military experience and those who do not. Welcome to students of all ages, all religions, and of all socioeconomic backgrounds. We are so glad you are here. In this college, each voice has something of value to contribute. Please take care to respect the different experiences, beliefs and values expressed by students, faculty and staff in CICS.
Computer Science at UMass began in 1964 with three faculty.

In 1978, the undergraduate major in Computer Science was established.

By 1980, there were 80 undergraduates...

What makes a good great computer scientist?

Yes, programming is important!
Yes, math and theory are important!

But, what really makes a great computer scientist is being an authentic and active member of the CICS community and beyond!

Be Authentic!

Have Integrity!
Welcome!

Commitment to Diversity and Inclusion

Building a Community of DIGNITY & RESPECT

Honor differences | See the humanity in everyone
Fact: The CS major demographics are not the demographics of UMass or Massachusetts as a whole.
Demographics: Gender
Demographics: Race
**Fact:** Not all groups of students have the same experience in the CS major.
November 2016 Campus Climate Survey Results
CICS Specific Data

• Have you experienced unfair treatment based on gender?
  • 7% of men say yes
  • 27% of women say yes
Goal: We want and need to be more inclusive to reach our greatest potential as a college.
• >1200 CS majors (including you: ~300 incoming students!)
• <100 Faculty
• **YOU** play a big role in setting the culture of the major and the college!
Activity:
Community Expectations Brainstorming
2 min: Think and/or write down:

• What is one thing you can do to create a positive culture in your learning environment(s) here?

• What is one thing you hope your peers will do to create a positive culture in your learning environment(s) here?
5 min: Share your answers in groups of 5:

• What is one thing you can do to create a positive culture in your learning environment(s) here?

• What is one thing you hope your peers will do to create a positive culture in your learning environment(s) here?
Actions

• When you hear/notice behavior that makes you feel uncomfortable or you know it would make others uncomfortable, say something (and/or let us know)

• Actively listen when discussion of sexism or racism or homophobia comes up or you meet someone whose personal experience is different from yours.
People you can talk to
