Student Name___________________________________  Student ID# ________________ Date_______________
Email ________________ @umass.edu  SPIRE Expected Grad Date(EGD): Class of ______  □ Feb □ May □ Sep
Academic Plan(s)______________________________________________ Overall GPA (3.00 required)__________

I understand that this form does not serve as a declaration of the CS minor. Academic minors are declared when the course work for the minor has been completed (or, in the final semester, if course work related to the minor is being competed in the final semester). This form is simply a means for the Undergraduate Program Committee to know of my intent to minor in CS and to track my progress. Submission of this form does not guarantee course enrollment. Once approved, being added to the CS Minors List identifies me for possible course preference and for eligibility to complete the CS Minor. I further understand that flexibility is required when planning my schedules over several semesters in order to complete the minor requirements and that a specific minimum performance is required to remain on the CS Minors List (see website for minor requirements and details).

QUALIFICATIONS FOR THE CS MINORS LIST

1. Overall GPA of at least 3.00 required.
2. Must be enrolled in at least COMPSCI 187 and preferably MATH 131 (or MATH 132) to submit CS Minor Intent Form.
3. Successful completion of the CS Predictor Courses (COMPSCI 121, COMPSCI 187) is required to be added to the CS Minors List. Minimum grades in CS predictor courses must meet current standard (B or better).
4. MATH 131 and MATH 132 are highly recommended and are required prerequisites for half the CS core. Opting out impacts eligibility for CS core and/or subsequent upper level CS Electives limiting and complicating options for finishing the minor (e.g. 311, 383, 513, 585, etc.).
5. Expectation that students reserve 5 semesters to complete the CS Minor, if starting with 121 @UMass Amherst. SPIRE EGD may impact eligibility.
6. No course for the minor may be taken on a Pass/Fail basis.
7. At least 2.00 overall Minor GPA required for courses used for minor requirements with no more than one of these having a grade of less than a C (see website for CS minor requirements).
8. The minor must be completed within the 10 semesters allowed for the completion of all graduation requirements, including the major.
9. Poor performance in CS courses impacts override eligibility for subsequent CS courses.

PREDICTORS FOR SUCCESS IN CS
